BREAK O'DAY (Hybrid-Cactus)

This fine giant dahlia of our own introduction is the beautiful blending of the decorative and cactus types, suggesting a full high center decorative dahlia, with back curved petals coming up through the flatter ones. The color is a delicate, clear sulphur yellow, shading to sulphur white at tips. The petals are of great substance, illuminated by a satiny sheen, giving the flower a waxy appearance. Awarded the A. D. S. Certificate of Merit at Storrs, Conn., 1920. Also Sweepstakes at Seattle, Wash., 1921, for best bloom in show. Each 50

To you who know us, thanks. Your success with Dahlias of Quality and Distinction is our success. We aim to satisfy our customers, and are justly proud of our dahlias wherever grown, and feel confident they are excelled by none.

Dahliadel Nurseries has grown to the extent that it now covers over thirty acres of ground, with 13,000 square feet of floor space devoted to the growing, storing and shipping of dahlias.

This catalog contains some of the finest introductions for 1924 ever offered, including those of other noted growers as well as our own. By careful propagation we are able to offer a number of novelties in roots and still more in plants in our Green Plant List issued in February. Better exhibition blooms can be produced from plants than from roots, by those understanding dahlia culture.

All varieties do not bloom equally well in different localities and in various soils. Therefore, it is a matter of selecting varieties suited to your needs. We will gladly recommend those suitable for your locality if you will kindly specify whether for cut flowers, garden effect or competitive exhibition. If you are having success with certain varieties, we would appreciate this knowledge.

The Dahlia Society of New Jersey has been recently organized to encourage the amateur, and maintain high standards of Jersey grown dahlias. A \$2.00 membership fee entitles you to the privileges of the society, interesting meetings and free admission to the annual show held at Newark. Come along with us. We will gladly mail you an application.

To you who do not know us, let us get acquainted. Our old customers have confidence in us. A trial order will convince you.

Be sure to ask for Green Plant List.

Your early order is invited to assure you of the widest selection of varieties.

All stock fully guaranteed.

Dahlias of Distinction

The season of 1924 offers you unexcelled values in Dahlias of Quality and Distinction. Our stock is the finest we have ever grown. Not only have we tried out and added a number of the novelties, but have one of the finest assortments of popular high-class standard varieties at a moderate price.

Orders will be filled with strong field-grown root divisions unless an unforeseen shortage should occur, in which case we will notify you, and growing plants will be sent direct from the Nurseries and extras put in to equalize values. We do not substitute.

Our roots are all field grown from healthy stock. Dahlias propagated under proper greenhouse conditions, and then grown with field culture, plenty of room, and without forced feeding, are of the highest vitality, and the freest from disease, providing the stock used for propagating is field selected and the cuttings properly chosen. Proper propagation never has injured a dahlia, and never will. Our stock has never been forced, and is grown in Jersey, the ideal spot for dahlias.

When you buy Dahlias of Quality and Distinction, you get what you order. Our stock of about 500,000 divisions, 99 per cent. healthy and true to name, enables us to give unusual values, good service and fully guarantee our stock.

Our New Guarantee

All dahlia roots and plants, if properly cared for, are guaranteed true to name and free from disease, Mosaic or stunts to the extent of replacement with true stock.

Only the best and strongest root-divisions are used in filling orders, and the utmost care exercised. But should an error occur, we will gladly rectify it if notified as soon as error is detected. Most failures in starting plants and roots are due to improper planting or because of attaching insects. No guarantee is given that plants or roots will grow and bloom, as that depends largely on soil, climatic conditions and attention. But should a root properly planted fail to start a shoot in three weeks after planting, return it to the Nurseries direct by mail and another will be sent at once.

Terms and Delivery

Dahlia roots will be sent, carriage prepaid anywhere in U. S. A., C. O. D.; purchaser to pay C. O. D. charges. If cash accompanies the order, roots will be sent fully prepaid, by express or by parcel post, whichever is better, considering distance and size of order.

MRS. JOHN M. ROOT (Root). Hybrid-Cactus

1924 Introduction

An enormous flower of pure canary yellow. One of the largest dahlias ever produced. The petals are long, broad and slightly twisted, giving the flower great diameter and depth. The bush growth is remarkable, plants attaining a height of six to seven feet without forcing, holding the massive blooms well above your head. Winner of the Pennsylvania Horticultural Society Silver Medal at Bryn Mawr, Pa., 1922, also Silver Medal at Philadelphia for best third-year seedling, 1923. Certificate of Merit, A. D. S. and D. S. of California, 1923.

Tubers, May delivery, \$25.00.

IMPORTANT

Every living thing has an enemy, and is susceptible to disease. The dahlia has few enemies, which are easily controlled, and it is a wonderful disease resistant. The stunted growth sometimes found in dahlias can only be controlled by digging and destroying all infected stock, but it takes concentrated effort in this roguing for a few years to secure stock that can be guaranteed free from disease, which emphasizes the fact that the value of dahlia roots is not only in the variety but in the health and vitality stored within the tubers.

Do not plant diseased stock knowingly as allied diseases are known to have been carried by sucking insects. It is easier to destroy diseased stock than to control all of the sucking insects. All our stock is guaranteed.
